After having learnt structure of Bachelor of Commerce (Honours) programme and its components, let us now focus on choosing the best way to go through the programme.

3. PLANNING YOUR STUDIES

The Bachelor of Commerce (Honours) programme offers flexibility and spacious in the courses and duration for the completion of programme. To avail the full advantage of this flexibility, A time line of systematic planning is all that is required to realize your goal of completing 180 credits of this

programmes within the minimum period of four years. If, for any reason, you are unable to complete the programmes within four years, please note that your registration for the programmes is valid for eight years and you can get additional two years by applying for extension.

As already mentioned, each credit of the programme is equivalent to 16 hours of lecture time comprising of 12 writing activities (i.e. reading and understanding the print material, listening to audio, watching video, attending counselling sessions, teleconferencing and writing no-glossary responses). This means that you will have to devote approximately 100 hours of study for a six credit course and 120 study hours for a four credit course. You have to adjust your reading schedule keeping this workload in view. With this schedule, you will be able to complete all courses of the first year. Likewise, in the Second and Third year of the programme, you have an equal number of credits to complete each semester. To complete the programmes in the minimum period of four years, you need to be focused. It is therefore helpful to study consistently throughout the year and aim plan to speed up before the examinations.

If you are not able to fully devote yourself for the programmes, you should set your targets for a particular semester/year. On the maximum of only those courses for which you plan to appear in the Term End Examinations (TEE). Carry over the rest to next year. Again next year, decide your goals for the two semesters of that year so that you could complete your SCDM programme within the minimum prescribed period of four years. Whenever you decide to complete the programmes within two years or more and have not submitted the Application for evaluation, make sure that you inform the current year's supervisor(s) for that course and submit them according to the schedule to be eligible to appear in the TEE. (For details see Section 8.1 of this Programme Guide). Through a proper planning, now one can complete this programme in just three years.

is the institutional of access to study material and permission to write the examinations. It may also result in the cancellation of admissions. In case any learner willfully appears in an examination without proper registration for a unit, disciplinary action may be taken against him or her by the authorities of the University.

5. INSTRUCTIONAL SYSTEM

The methodology of instruction adopted by the University is different from that in the conventional universities. The Open University system is more learner-oriented in which the learner is an active participant in the teaching-learning process. Most of the instruction is suspended through distance rather than face-to-face communication.

The University follows a multi media approach for instruction. It consists of:

- Self-Study Material;
- Audio-video programmes transmitted through radio and television;
- Tele-instruction sessions;
- Telephone consulting at the Study Centres by the Academic Counsellors;
- Assignment Tutorial Panels; Dissertation Projects etc.

E1 Course Material

Course material, in print or e-book format, is the primary form of instruction. You should concentrate mainly on the course materials that are sent to you in the form of printed books or e-books converted into e-books. The course material is sufficient to write assignment responses and prepare for the Term End Examination (TEE). Meanwhile, however, it is suggested you to read additional material, especially those given in the Triggered Reading section of the course material.

The course material presented by the University is self-teaching in nature. Each course is presented in the form of a single book or e-book. The course is divided into a number of Blocks. A four credit course generally has Ten Units in the Block. Each Block consists of Chats (about 30-35 units), approximately 14 to 20 units is used for a 4 credit course. Similarly a six credit course has 17-18 Blocks having approximately 20 to 24 units. Normally, the Unit covered in a Block have a thematic unity. The introduction section of the book provides an overview of the course, its objectives, guidelines for studying the material, etc. The Block introduction explains the coverage of the Block in a simple as well as the coverage of each Unit in that Block.

Each Unit is structured in a way to facilitate self-study by you and begins with learning Objectives which give you an idea what is expected to learn from the Unit. The Textbook section provides an account of the major themes of the unit. An attempt is made to forge a link of the present Unit with the topics of the previous Unit. This is followed by the main Text, which is divided into various sections and subsections. At the end of each section, the questions for self-evaluation have been provided under the heading of Check Your Progress. You could attempt this part, as it will help you in assessing the immediate understanding of the topic. Questions in Check Your Progress are for your practice only and you should not submit answers to these questions to the University for assessment. You should try to frame the answers in your own words and not just copy about the course material.

The section Let Us Sum Up/Summary Conclusion gives a brief account of what has been discussed in the Unit. This summary enables you to recall the main points covered in the Unit. Each unit ends with References which give the list of books and articles that have been consulted to prepare the unit.

In addition, at the end of each Block Course, a list of *Degeneral Readings* is given. Some of these books listed in this section will be available in the Study Centre library.

In order to complement the ILMs, read the Units carefully and note down the important points. You can use the space in the margin of the printed page for making notes and writing your comments. While reading the Units, you may mark the difficult parts and look for the meaning of such words in a dictionary. If you still do not understand something, consult your supervisor during the face-to-face sessions at the Study Centre for clarifications.

Deposit of Study Material

The deposit of study material starts once the online process of registration is complete. You are required to register your study material within one month of closing the registration for the programme. If the course material is missing or has some damage or defective material, please address your query to the Regional Centre or write to the Student Services Centre at swuinfo@iprime.ac.in.

For the students who have applied for delayed tenure, detailed information is available on the ICARDE website.

5.3 Academic Counselling

In distance education, face-to-face contact between the learners and their academic teams' considers to be an important activity. The purpose of such an interaction is to answer your questions and clarify your doubts, which may not be possible through any other mode of communication. It is also intended to provide you an opportunity to meet fellow learners.

There are experienced academic counsellors in the Study Centres to provide you the academic counselling and guidance in the courses that you have selected for study. The academic counselling sessions for each of the courses will be held at suitable intervals throughout the academic session. Attendance in the academic counselling sessions for theory courses is not compulsory, but we would request you to attend these sessions as they may be useful in certain respects, such as to clarify your doubts on the subject with teachers and fellow learners, comprehend issues of the complex ideas or difficult topics, and get clarifications for any doubts. However, it is compulsory to attend practical sessions for the courses that have practical or laboratory work.

Face-to-face counselling will be provided to you in the Study Centres assigned to you. You should note that the academic counselling sessions will be very different from the usual classroom teaching or lectures. Academic counsellors are not supposed to deliver lectures in the conventional form, instead they try to help you to overcome difficulties, which you face while studying the course. In these sessions, you must look into the subject-based difficulties and any other issues arising out of such difficulties. Besides, some of the audio and video material that is available at that time will be played in the counselling sessions. The University normally organises six to seven academic counselling sessions for a 4 credits and nine to ten sessions for a 5 credits course. In case there are less than 15 students in a Study Centre, then intensive counselling sessions will be held which essentially means that all our cost of the prescribed counselling sessions will be covered within a week's time.

Before you go to attend the academic counselling sessions, it will be helpful if before and you go through your course material and note down the points to be discussed. Unless you have gone through the Unit, counselling may not be of much help. Try to concentrate on relevant and important areas. Try to understand each other's point of view. You may also establish personal contact with your fellow participants to get mutual help for studies or projects. Try to get the maximum possible help from your academic counsellor.

The students are invited these sessions at the regional centre and specified study centres of IITBHU. It is a one way video and two way audio facility. The teleconferencing is available on Gram Bharatam and Dishnet. The time slot for B Com programme will be as per Electronic Media Reference Classes (EMRC) schedule. The faculty members from Deemed and other experts or resource persons participate in these sessions. You can put your problems and questions to these experts through the telephone available at respective centres. These will help in solving your queries related to course and other general information pertaining to the Bachelor of Commerce (Honours) (B.COM) programme.

6. EVALUATION

The system of evaluation followed by the University is also different from that of the conventional universities. IGNOU has a continuous system of evaluation.

- Self-evaluation activities within each unit of study
- Continuous evaluation usually through assignments which are term-based, practical assignments and projects undertaken at regular intervals in the programme, etc. Depending on the nature of the course, up to five
- The Term End Examination
- Project/Practical work depending upon the requirement of the course.

The evaluation consists of two parts: (i) continuous evaluation through assignments, and (ii) term and examination. In the final result, all the assignments of a course carry 20% weightage while

80% weightage is given to the Term End Examination (TEE). University follows a grading system for continuous evaluation as well as term-end examination. It is based on a ten point scale using the letter grades as given below. The University has decided to provide numerical marking scale in the grade card and credit information for the B.ComF Degree.

| Letter Grade | Numerical Grade | Percentage |
|-------------------|-----------------|--------------|
| G (Outstanding) | 19 | > 91 |
| A+ (Excellent) | 8 | > 75 to < 81 |
| A (Very Good) | 7 | > 65 to < 72 |
| B+ (Good) | 6 | > 55 to < 60 |
| B (Above Average) | 5 | > 50 to < 55 |
| C (Average) | 4 | = 40 to < 40 |
| D (Pass) | 3 | > 25 to < 30 |
| F (Fail) | 0 | < 25 |
| Ab (Absent) | 0 | Absent |

You are required to score at least 25% marks (Grade D) in both continuous evaluation (assignments) as well as the term-end examination of each course. In the overall computation also, you must get at least 25% marks (Grade D) in each course to claim the B.ComF degree. The scores of the continuous evaluation and term-end examination are complementary to each other for qualifying exams.

Because this is not qualify to the term-end examination, are allowed to take up the Term End Examination in the next year. It means you can take the TEE of the first year courses in the second year of your study. But you can appear in the assignments for not more than 45 credits in the TEE. Similarly, the first and second year courses can be carried over to the third year.

6.1 Assignments

Assignment concerns the continuous evaluation. The marks that you score in the assignments will be counted in your final credit. As mentioned earlier, an assignment of a course carries 20% weightage. You are therefore advised to take your assignments seriously.

For each course of this programme, you have to do two to three Tutor Marked Assessments (TMAs) depending upon the nature of the course. The TMA for each semester can be downloaded from the Student Zone of the University website.

You have to complete the assignment within the due dates specified on the assignment booklet. You will not be allowed to appear for the oral and viva-voce for any course if you do not submit the assignment in time for that course. If you appear in oral and viva-voce without submitting the assignment, the result of the term-end examination is liable to be recalled.

Ensure that your assignment responses are complete in all respects. Before submission, you should ensure that you have answered all the questions in all assignments. Complete assignment responses may affect your grade adversely.

The main purpose of TMA is to test your comprehension of the learning materials you receive from IGNOU and also to help you get through the course. The academic academic coordinator after correcting the assignments will then hand to you with their assessment and marks. The comments will guide you in your study and help in improving it. It is therefore important that you submit the evaluated TMAs along with a copy of the assessment sheet containing the comments of the evaluator on your performance.

The content provided in the printed course materials should be sufficient for answering the assignments. Please do not worry about the non-availability of some reading materials for working on the assignments. However, if you have access to other books, you may make use of them. The assignments are designed in such a way as to help you concentrate mainly on the course material and the real practical experience.

You have to submit your assignment response sheet to the Coordinator of the Study Centre assigned to you at least one month before the due date of the assignment. For your own record, retain a copy of all the assignment responses which you submit to the Coordinator. If you do not yet have your duly evaluated term marked assignments along with a copy of the assessment sheet containing comments of the academic on your assignment within a month after submission, please try to get it personally from your Study Centre. This may help you to improve upon future assignments.

Keep duplicate copies of assignment responses of TMAs submitted to the Study Centres. They may be required to be produced at Student Evaluation Division as demanded. Also consider an account of the corrected assignments responses received by you after evaluation. This will help you to approach your case to the University or take any problem there.

If you do not get a pass grade in any assignment, you have to re-submit again. Get fresh assignments from the Student Zone tab of the University website. However, once you get the pass grade in an assignment, you cannot re-submit it for improvement of grade. Assignments are not subject to re-evaluation except for factual errors, if any, committed by the evaluator. The discrepancy noticed by you in the evaluated responses is should be brought to the notice of the Coordinator of the Study Centre, so that the correct score is forwarded by him/her to the Student Evaluation Division or Headquarter.

In case you find that the score indicated in the recorded sheet of your Term Marked Assignment has not been correctly reflected or is not entered in your grade card, you are advised to contact the Coordinator of your Study Centre with a request to forward the correct award letter to the Student Evaluation Division or the Headquarter.

Do not enclose or repeat details for clarifications, if any, about study material or assignment along with the assignment. Send your details in a separate cover to the Director of the concerned School
